B-Sensible waterproof pillowcase

(B-Sensible waterproof fitted-sheet, B-Dermofresh Med waterproof fitted-sheet, SensibleRest waterproof fitted-sheet, B-Sensible mattress protector, B-Dermofresh Med mattress protector, SensibleRest mattress protector, B-Dermofresh Med waterproof pillowcase, SensibleRest waterproof pillowcase, B-Sensible pillow protector, B-Dermofresh Med pillow protector, SensibleRest pillow protector)

Clinical application study under dermatological control

The test product was applied during a period of four weeks by 20 subjects once a day onto the head. From the clinical-dermatological point of view, no relevant skin reactions occurred in the test area; the product was tolerated

excellently.

Neither intolerance reactions suggestive of irritation nor allergic reactions (contact dermatitis) were detected. Accordingly, from the dermatological viewpoint, there is no high potential for irritation and sensitisation for the tested product when this is used as intended.
